ADVANCED SAFETY TECHNOLOGY

SMART BRAKE SUPPORT WITH REAR CROSS TRAFFIC ALERT

Detects obstacles and pedestrians in front and behind the Mazda CX-5 , and also checking blind spot areas, to avoid collisions.

EMERGENCY LANE KEEPING WITH BLIND SPOT ASSIST

Designed to assist steering wheel operation to avoid danger, the system checks vehicle surroundings when changing lanes. Sensors mounted in the rear bumper detect vehicles approaching from behind and in the adjacent lane. It alerts the driver to vehicles in the blind spots by displaying an icon in the appropriate door mirror – and if necessary, activates the steering to avoid a collision.

DRIVER EMERGENCY ASSIST (DEA)

Mazdas Driver Emergency Assist monitors the drivers line sight and driving behavior, in case the driver is facing severe health conditions, the system decelerates the vehicle and is taking car of a safe stop

MAZDA RADAR CRUISE CONTROL (MRCC)

With the ability to bring you to a complete stop in traffic and take off again once traffic moves, MRCC adjusts your speed to maintain a safe distance from the car ahead.
